WHO WE ARE

The Ark Camp (*Bárka tábor*) is a large-scale, equal opportunity program of the Reformed Church in Hungary, which was launched in 2018. We provide summer camp opportunities for more than 1,500 children a year, including those who suffer significant disadvantages in their daily lives due to poverty, discrimination and abuse. For these children, the Ark Camp is more than just a camp.

Since the start of the Ark Camp project in 2018, nearly 4000 children living in the most disadvantaged regions of Hungary were given the opportunity to participate in the inclusive summer program.

OUR MISSION

Offer positive experiences. Develop. Laugh. Care. Play. Encourage. Build a community. Strengthen children in overcoming the negative consequences of disadvantage by developing their individual and social competencies. In the summer camp, our goal is to provide the children with everything they need for a happy childhood: a safe and loving environment, healthy food, adventures, and a place to relax.

Our mission is to show the children that despite their hardships, there is a road that leads to a life full of opportunities.

OUR GOALS

One of the main objectives of the Ark Camp is to strengthen the inclusive approach, diversity, and social cohesion, thereby increase the capacity for positive adaptation even in challenging circumstances. We also aim to develop the social competencies of children and young people with multiple disadvantages. We encourage the children to break out of their every-day environment and gain insight into a whole new world.

Our goal is to give them a sense of success and the opportunity to acquire a positive self-image and attitude by getting rid of the negative labels attached to them.

HOW YOU CAN SUPPORT US

Our camps are free for participants, but this requires the help of supporters. We are seeking close cooperation with partners from the business, non-profit and private sector, who take social responsibility seriously and are able to contribute to achieving our goal and making the lives of disadvantaged children brighter.

EVEN A SMALL CONTRIBUTION CAN MAKE A DIFFERENCE

With **10 euros** the cost of a daily meal for a child is covered.

With **85 euros** we can cover all the expenses of a child for a day.

With **150 euros** we can organize a health promotion and education workshop for the whole camp.

With **420 euros** a child's weekly camp fees are covered.

With **4200 euros** ten children can attend the one-week summer camp.

With **11 200 euros** we cover the transportation fees of 200 kids from all parts of Hungary.

Changing the lives of children with difficult social background is our common goal.

Help us achieve it!
